HOW TO READ THE RED DEER COLLEGE TIMETABLE

COURSE CODES (e.g. ACCT | ADEV | ADMN = SUBJECTS)

The 2-4 character course name codes are an abbreviation used to identify the name of the subject that is being offered. For a complete listing of the course name codes, refer to the resource document Course Name Codes. Select the hyperlinked course name code to view the sections of the courses that are being offered.

COURSE OFFERINGS (e.g. CHEM 075 to CHEM 251)

Once a course code (subject) has been selected, you may see a number of different courses offered in that area. The number that follows the subject is the unique identifier of the course.
DESCRIPTION OF COURSE AND SECTION OFFERINGS (e.g. CHEM 211)

Once a course has been selected, a description of that course will display as well as the section offerings of that course. The prerequisite comment indicates a course/s which must be completed before taking the course being described. Section offerings simply mean that there may be multiple days and/or times that the particular course is offered.

In the example provided, after viewing the first section of the CHEM 211 course, using the scrollbar on the right will display additional offerings of the course. In some cases, such as this one, there will be listings for laboratories and/or seminars as well. This means that CHEM 211 has all 3 components; a lecture, a lab and a seminar. A student registering for this course must select one of each component in order to be fully registered.
CONTENTS OF THE COURSE SECTION DESCRIPTION

Course CRN: Course Reference Number - each course is identified by a 2 to 4-digit course reference number that must be used when registering in person or online.

Type: The method of delivery of the course. E.g. lecture = classroom, laboratory = lab, seminar = classroom. Courses are generally offered in a classroom setting.

Billing Credits: Tuition and Student Association fees are charged on the number of billing credits for the courses in which you are registered. Some courses are also assessed Material and Special Fees as listed in the Academic calendar.

Academic Credits: Course credits are a measure of learning opportunities based on the number and type of instructional hours or equivalent learning experiences. For Red Deer College diploma and certificate courses, academic credits are normally equal to billing credits. For courses in university transfer programs, academic credits are normally equal to the credit given at university. This is usually equal to the number of lecture hours.

Contact Hours: These are the course contact hours per week based on the days and times the courses are offered.

Status: This will identify whether the course is available for registration. If the status is CLOSED, then the course is full. If the status is OPEN, then registration is available.

Instructor(s): The name of the Instructor or Instructors who are teaching the course. NOTE: This information may change before the start date of the courses.

Comment(s): If there are any special requirements or restrictions pertaining to the course, there may be a comment indicating this. For a listing of the common course comments, refer to the resource document Course Comments.

Weekdays, Times, Room and Building: The course offering by day, time, room number and building. NOTE: This information may change before the start date of the courses.

Please note: When selecting your courses, please be aware of the “Building” information for each course:

MILLC = Donald School of Business, located in downtown Red Deer at the Millennium Centre, 4909 – 49 Street
MAIN = RDC Main Campus

Enrolled: The number of students currently enrolled in the course.

Limit: The maximum number of students allowed to enroll in the course.

Waitlisted: The number of students currently waitlisted for the course.

Start Date: The first day of classes for the term.

End Date: The last day of classes for the term.
